

Laravel Developer

Are you looking for an opportunity to take full ownership of new products, to drive their development and see them make a difference to business outcomes?

GRV Media is a high-growth, multi-platform new media company with a 16 year track record. It has 16 active websites (including brands such as HITC, The Boot Room, Reality Titbit and Rangers News), two popular YouTube channels and an Adtech business.

We are looking for a Laravel Developer to provide support to our existing tech team and drive forward new solutions for our publisher and ad ops teams.

The role will include developing our media and ad reporting platforms. Both platforms consist of a Laravel backend with a mix of HTML and React JS frontends. The successful candidate will take ownership of these platforms, developing updates and guiding further developments.

The ideal candidate will be a passionate, detail orientated developer who writes well structured and supportable code. You will be a natural problem solver who is driven to learn new technologies. You will understand the need to fully QC your own code and are able to code check others work. You will be expected to hit the ground running. Experience and confidence is key.

With around 65 payroll and freelance contributors, GRV Media is a UK based, remote company. Applicants are asked to apply only if they are based in the UK, prepared to work remotely and preferably have experience of doing so.

Main areas of responsibility:

- Take a lead on developing our media and ad reporting platforms
- Engage with CSM and publisher teams to add new tools and evaluate the success of changes to the platforms
- Contribute to and improve internal tooling and processes

Key skills:

- Proficient in Laravel and PHP
- React experience is preferable but a desire to learn and develop in React would be just as valuable
- Comfortable working with JSON and integrating with 3rd party API's
