

AD TECH SOFTWARE ENGINEER

Are you looking for an opportunity to apply new advertising technologies to large, popular, high traffic websites and make a real and discernible difference to a business bottom line?

GRV Media is a high-growth, multi-platform new media company with a 20 year successful track record and 120 staff and content providers. Our own and partner sites achieved 420m page views in the first quarter, from 173m users.

We are looking for an Ad Tech Software Engineer to provide support to our existing tech team and drive forward new ad tech solutions.

The role will include managing our Prebid.js stack and Prebid Ad Server. As such it will require full-stack knowledge and in particular with pure JS and Go.

The ideal candidate will be a detail orientated developer who writes well structured and supportable code. You will be a natural problem solver who is driven to learn new technologies. You will understand the need to fully QC your own code and are able to code check others work. You will be expected to hit the ground running. Experience and confidence is key.

GRV Media is a UK based, remote company and applicants are asked to apply only if they have a right to work in the UK, are prepared to work remotely and enjoy doing so.

Main areas of responsibility:

- Take the lead on managing and developing our ad tech stack
- Manage front end javascript library built around Prebid.js
- Manage back end ad server built around Prebid Server
- Engage with ad ops team to develop new tools and evaluate the success of changes
- Contribute to and improve internal tooling and processes
- Diagnose and resolve issues with client implementations

Key skills:

- Advanced JavaScript
- Go
- Experience in building low latency and high throughput applications
- Experience of Big Data cloud platforms such as BigQuery would be a bonus.

- Any experience in within the ad-tech industry and with Prebid would be advantageous

Benefits

- Taking the lead on interesting projects with interesting people
- A competitive salary depending on experience
- Discretionary bonus scheme
- Company Pension contribution
- A professional but friendly working environment.

Applying

Apply via email using the link below. Include your CV, a little bit about you, some examples of projects you've worked on, and why you'd like to work with us.
