

## SENIOR DEVELOPER (PHP, WORDPRESS)

Are you an experienced PHP and WordPress Developer looking for the next step - and an opportunity to apply your knowledge of new technologies to popular and high traffic websites?

GRV Media is a high-growth, multi-platform new media company with a 21 year successful track record and 120 staff and content providers. Our own and partner sites achieved 463m page views in the second quarter of 2022, from 178m users.

As well as our successful owned and operated properties, PROP<sup>®</sup>, our publisher services business helps publishers of all sizes maximise their potential and navigate the multitude of changes to the online landscape. Opzet<sup>®</sup> is our AI driven contextual graph - opening up opportunities as we enter the cookieless future.

We are looking for an experienced developer to provide work in our existing tech team and drive forward new publisher tools.

While the role will include supporting our existing WordPress sites a key component will be implementing the strategy for a future WordPress platform to support our internal and client sites and taking ownership of our WordPress plugin.

To be a candidate for this role, you will be a detail orientated developer who writes well structured and supportable code. You will be a natural problem solver who is driven to embrace new technologies. You will understand the need to fully QC your own code and will be comfortable checking the work of others. You will be able to hit the ground running in a position where experience and confidence of success is key.

GRV Media is a UK based, remote company and applicants are asked to apply only if they have a right to work in the UK, are prepared to work remotely and enjoy doing so.

### Main areas of responsibility:

- Take the lead on providing the future framework for our sites to be built from
- Engage with our editorial team to build best practice tools for content, SEO and advertising

- Contribute to and improve internal tooling and processes.
- Help debug problems with existing WordPress plugins and setups
- Diagnose and resolve issues with servers and cloud server instances
- Initiate and deliver proactive strategies to improve user experience and deliver increased revenue

#### Key skills:

- Advanced WordPress - admin, theme and plugins (2yrs experience minimum)
- Amazon Web Services including S3, EC2, Elastic Beanstalk
- GIT
- PHP OOP
- MySQL/Maria DB
- HTML, CSS and Javascript
- Experience of AMP and/or Core Web Vitals would be a bonus.

#### Benefits

- Taking the lead on interesting projects with interesting people
- A competitive salary depending on experience
- Discretionary bonus scheme
- Company Pension contribution
- A professional but friendly working environment.

#### Applying

Apply via email using the link below. Include your CV, a little bit about you, some examples of projects you've worked on, and why you'd like to work with us.
